1 Define your problem statement

If poison pesticide affect the plants and they are protected by
covering them. It should maintain the soil level in balanced
condition .The ground water is polluted by chemical fertilizer
in plant to avoid by them using natural fertilizer. Then dus particles settle in water are recycled for plant usage .
From the prediction
chemical found in the food which causes a disease to human.
The plant have nitrogen leaching condition , it is recovered by
proper irrigation and prevented from leaching.

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

S.Dhatchayani
- killing the disease causing pathogens.
- Create a well balanced soil
- supply pure water to the plants
- Choose the right plants for your site
-
- using resistant varieties
- proper spacing and trellising
- use a mulch layer
- avoid tabacco while working

E.L Vincy rashitha
- Field monitoring
- Harvesting
- Reduce wastage of water
- Weed control
-
- Soil management
- Improved Production
- pesticides
- Sustainble Irrigation

K.Saraswathi
- Crop and soil monitoring
- Mill quality analysis
- Nutrient replenishment in soil
- Crop yield prediction
-
- weather condition
- Proper fertilizer recommendation
- Proper fertilizer recommendation
- Plant disease diagnosis.

K. Divya
- Plant growth monitoring/ diseiha
- Supply of nutrients to plants
- Organic Matter Decomposition
- Crop quality and productivity
-
- Nutrient Cycle
- Crop production improvements
- Crop rotation and Crop sequence
- Different type of crop cultivated

Elamathi N
- using chemical observation sensors to know the chemical level in fertilization
- using chemical observation sensors to know the chemical level in fertilization

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Different type of crop cultivated

using chemical observation sensors to know the chemical level in fertilization

weather condition

Weed control

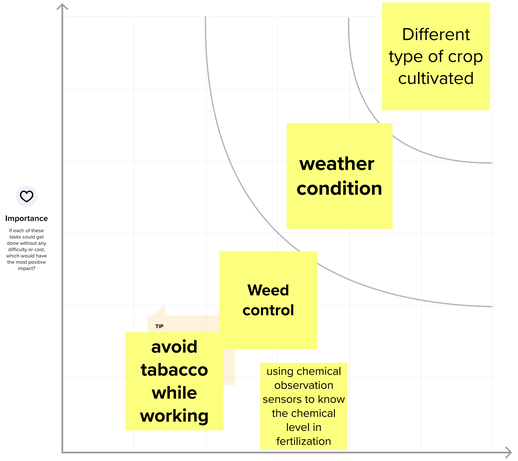
avoid tabacco while working

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes



After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

A Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

B Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint
Define the components of a new idea or strategy.
